PARLIAMENT IS TO MEET NEXT FRIDAY

Both Leaders are Anxious for Opening.

MOVIE CENSORSHIP.

Will be Main Issue to Be Debated.

Everybody has been wondering for about two months when the Mock Parliament is going to meet. It now seems fairly certain that all the politicians are in form again after the strenuous times we have been going through, and that there will be a meeting a week from to-day. This present period is probably the most active one of the whole college year, but so far the coast is clear for Friday, February 3rd, a week from to-day, and that is the date set for the opening of Parliament.

This decision is the outcome of an executive meeting of the L.I.T. held in the Union yesterday afternoon. It is rumoured that there were some dissenting voices raised against such an early meeting, but the view that the student body of electors would brook no further delay was very forcibly brought forward by Dillon, the president. In the end his sound judgment triumphed, and the Prime Minister assented.

Some time ago the government and opposition leaders were interviewed by the Daily and at that time they spoke of many important questions to be brought up in this session. It may be well to review these matters briefly.

Although many matters of importance will be discussed, there are two or three of prime interest. These are the issues of movie censorship, legislation about overhauls, and the building of the railway up to Hudson Bay. The matter of movie censorship is one of great interest to modern human beings. The enormous influence of the movies upon the general public makes a vital issue of censorship. Should it be abolished in a democratic country or is it necessary to keep some restraint upon the producers? There are many adherents on

(Continued on Page 2.)

ECONOMICS CLUB HEARD GOOD PAPER

Delivered by H. O'Hagan on Canadian Immigration.

Last night the Economics Club held a very successful meeting, when an excellent paper on Immigration was read by H. O'Hagan, of Arts '22. After the reading of the minutes, the President, S. D. Pierce, welcomed Dr. Leacock on behalf of the club. The latter's remarks were few, but very witty. The President then called on O'Hagan to present his paper. He is a native of British Columbia, and had prepared some excellent material on his subject of immigration. It was very instructive to hear a good paper by a man who also has a practical knowledge of his subject.

The immigration question, as it affects Canada, may be divided into three divisions: (1) Hindus; (2) Chinese; (3) Japanese. The speaker showed that the third of these was by far the most important. Hindu immigration has now ceased. Chinese immigration is not serious, because the people do not come with the intention of staying here, and do not bring their wives. The Japs are the real menace to Canada, because they come here and undersell Canadian people and gain the positions in fisheries and fruit farming. They have gained control of these two industries, and are also multiplying the numbers of their race.

In his general conclusions O'Hagan said that the Japs belonged to a different civilisation, could not be assimilated by Canada, and were a menace to white people from an economic and military point of view.

NEWFOUNDLAND CLUB HOLD SKATING PARTY

A very enjoyable party was held last night at the M. A. A. Rink by the members of the Newfoundland Club.

The good condition of the ice, and the fine brisk weather added to the attractions of the evening.

After the skating the party went to the Edinburgh, where supper, dancing and music were indulged in till midnight.

COMMERCIAL SOCIETY HAD BIG BANQUET

P. B. Wilson Gave Main Speech of the Evening.

EXCELLENT MEAL.

Very Successful Affair—Large Turnout of Students.

The McGill Orchestra was playing last evening as we filed pass the ticket-collector and sat down to a good banquet. It was fine to hear the latest dance music rendered by our University Orchestra.

After the dinner the President, A. H. MacKinnon called upon Mr. B. K. Sandwell to propose a toast to Canada. This toast was extremely witty and possibly for this reason drew a greater degree of attention than is wont to prevail in Prof. Sandwell's lectures.

Mr. P. B. Wilson vice-president of the Spanish River Pulp & Paper Co. spoke on the pulp and paper industry of the above country as its interests affected Canada. In 1909, 150,000 tons of pulp and paper were produced while in 1921, 1,000,000 tons were produced. Canada has the two essentials for this industry, water-power, and spruce. Jack Pine which is used extensively in the manufacture of this commodity abounds in plenty in the eastern forests. The pulp and paper industry is a great asset to the railways as this industry insures a constant inflow and outflow of traffic. One or two years previous to cutting the spruce experts survey the timber and find the amount of timber available and the best location for a camp. The camp must then be built and provisions sent in the winter previous to the opening of operations. Several years must elapse before the cut timber can be used for the manufacture of pulpwood. After the logs are brought to the mill the wood is slashed into two lengths and placed in drum-bark which remove bark from the logs. The pulp is of two kinds, ground wood or mechanical pulp and sulphite pulp. The ground wood pulp is made by pressing the barked logs against rapidly rotating grindstones which reduce the wood to pulp. In the case of sulphite pulp the wood is cut up into chips and then cooked. The liquid is run off and the fibre alone remains which is the pulp. In the manufacture of paper 80 per cent of ground wood and 20 per cent of pulp is used. This mixture is introduced into the stock-chest on a pondrinal wire rotating in water. The water is run off and the pulp settles on the wire as paper. The sulphite pulp forms the web of the paper and the ground wood the filling.

Mr. Wilson then dealt with the mills and their ability to produce pulpwood cheaply. Mills built previous to 1917 unless old fashioned were at a much greater advance than mills built after 1917. An ordinary mill of 100 tons cost \$2,500,000 previous to 1917 and from \$7,000,000 to \$7,500,000 since. Mr. Wilson then gave the students some business advice. Integrity, loyalty, and

(Continued on Page 2.)

HOCKEY REPORTS.

Telegraphic reports of the hockey game at Toronto tomorrow will be received by periods, and will be posted in the Union.

UNION HOUSE FORMAL DANCE ON TO-NIGHT

Music is to be Rendered by McGill Dance Orchestra.

COZY CORNERS.

Extensive Preparations for Big Social Event.

After days of careful preparation and planning, all is ready for the Union House Formal Dance and there is no doubt but that to-night's event will prove to be an overwhelming success. This is a superb chance to have those post-exam blues driven out of the system and many have signified their intention to undergo the delightful cure. The members of the committee in charge of the dance have been given an excellent opportunity to demonstrate their artistic tastes and the result is a delightfully decorated ball-room, the flags and streamers producing an effect that should make the most experienced of professional interior decorators turn exceedingly pink with jealousy.

The floor is in its usual unsurpassable condition and as for the music that is to be supplied, it will undoubtedly prove to be beyond criticism. This is a very safe statement to make, for the members of the deservedly famous McGill Dance Orchestra will be the distributors of the latest and snappiest dance music and once again they will feature their moonlight waltzes.

Careful preparations have also been made for the comfort of the guests during the interval between dances and one member of the committee assured a Daily representative that the most delightful cozy corners are being arranged. The refreshments, of course, will be up to the high standards of the past as Mr. Darville has been engaged for this purpose. This, in connection with the other facts mentioned above, assures all who will be lucky enough to attend, the greatest of pleasure and as there are still a few tickets left, the delaying ones are reminded that to hesitate is to be lost.

The dancing will start at quarter to nine sharp and Lady Currie, Mrs. Laing, Mrs. Whitnall, Mrs. Porter and Mrs. Brown will be the patronesses for the evening.

CANON SHATFORD SUNDAY MORNING

Also Sir Arthur Currie at Service in Union.

The University Church Service held in the Union last year was much appreciated by the Student body and accordingly another similar service which all members of the University are invited to attend, will be held next Sunday, January 29th, at 11.00 A.M. in the Lounge Room. The Rev. Canon Shatford who is very well known to many McGill men, will speak, while Professor W. C. Graham will be in charge, assisted by Sir Arthur Currie. The Students Orchestra and a Student choir will provide the music. It is always a pleasure to hear Canon Shatford, and those who attend will surely find it a worth while service.

PHYS. EDS. PLAY FIRST GAME SAT.

Second Match in Ladies' Amateur Hockey.

On Saturday, at 11 a.m., on the rink in the hollow the Physical Eds. will play the Teachers' team in their first match in the Montreal Ladies' Amateur Hockey League. The girls are anticipating a hard fight, and have been working faithfully at every opportunity. Yesterday afternoon saw some vigorous work under Shag's able coaching.

Owing to their many other strenuous activities, the Physical Eds. cannot give as much time to hockey as they would wish, but they are nevertheless determined to put up a stiff fight on Saturday.

The line-up will be as follows:—
Centre Miss Dennis
Left Wing Miss Munro
Right Wing Miss Collins
Defence Miss Gardner
Miss Coll
Goal Miss Newmark
Subs. Miss Stone
Miss Thompson
Miss Flannagan

MONTREAL, FRIDAY, JANUARY 27, 1922.

LET'S GO OVER THE TOP.

The campaign for European Student Relief under the auspices of the Students' Council is now well under way, and the students of all faculties are being approached. Although the results are encouraging, there is much room for improvement. The committee is asking each student to contribute fifty cents and more if possible. Surely we can do this much at least, and there are many who could help to swell the total so that McGill may make a creditable showing in this good work.

There is no doubt that the cause is a very worthy one, and merits our whole-hearted support. It is well known that economic conditions in Central Europe are appalling. Unemployment is very prevalent, and many students would leave college at once if work were to be had. But there is no work, and so the young people in the face of starvation, are doing their utmost to prepare for better days. Many are absolutely dependent on help from this continent for food. All that they get from any source is a bowl of soup or a plate of rice and a piece of bread—and not more than one such meal a day. Most of the students live in small rooms, which are never heated, and often there is only one outfit of clothing between two or three people. In such cases they take turns with the clothing and go to lectures in rotation.

Surely, if such conditions were among us we could spare more than a mere fifty cents to help our fellow students. These people are really our fellow students—let us look a little farther than our own petty affairs. We are assured that every cent we give goes to feed these unfortunate people, and at three cents a meal just figure out how far a dollar will go. Let us carry this campaign over the top.

MCGILL AND FORESTRY.

The forest is Canada's main asset. The average person, if the subject is considered at all, thinks that the timber supply of the Dominion is unlimited. The facts are that we depend upon the United States for most of our hardwoods, and our supply of commercial wood is getting farther and farther away. The United States as a whole has more timber than Canada, and South America has the world's greatest reserve. Dr. Howe, Dean of the Faculty of Forestry, University of Toronto, says that during the past fifty years, one million square miles of timber land have been destroyed by fire as compared with one hundred thousand cleared by the axe. Fifty per cent of the bush fires are caused by careless fishermen, campers and picnic parties, and the railways are blamed for twenty per cent. It is said that the time has come when the practice of forestry is just as fundamental to the permanency of our industries as is the pursuit of agriculture.

The annual convention of the Canadian Pulp and Paper Association is now taking place in Montreal. This industry is the backbone of the Province of Quebec, and the total capital invested in Canada's paper mills is three hundred and fifty millions. This important industry is actively engaged in afforestation work, and needs trained men. These foresters have been coming from Scandinavia and the United States, where there are excellent forestry schools, notably at Cornell. The Universities of Toronto, New Brunswick and Laval have recently added Faculties of Forestry.

The vast timber reaches of the Ottawa, the St. Maurice, the Saguenay, and the Lower St. Lawrence are all tributary to Montreal—why not a forestry course at McGill?

TWO GAMES WITH 'VARSITY.

The McGill senior hockey and basketball teams leave for Toronto to-day to play their first intercollegiate games against the U. of T. on Saturday. In spite of its defeat on Wednesday night, the hockey team played a splendid game, and with better luck the result might have been different. When our men go to Toronto they will meet the present holders of the Allan Cup, and one of the strongest teams that has ever played intercollegiate hockey.

However, the 'Varsity team has not been quite so successful in its scheduled games this season, and we at McGill have reason to hope that our team will add one more to 'Varsity's list of defeats.

The basketball five have been practising strenuously for many weeks, and are in excellent condition. This indoor sport does not receive the attention of the students it deserves, who do not give the same interest as in football and hockey fixtures. Our best wishes go with the two aggregations, and whether they win or lose, that they will uphold the fighting spirit of Old McGill.

COMMERCIAL SOCIETY HAD BIG BANQUET.

(Continued from Page 1.)

manner were the three essential qualifications that the speaker had found necessary in his business career and he strongly advised the members present to follow them in their careers.

Mr. Elderkin proposed a toast to the faculty and Dean Laing replied. The Dean referred in a humorous way to smoking in the halls and said law must have been made to introduce the students to the offenders, but all offenders so far were non-smokers. The skill with which Montrealers navigate the slippery streets was greatly admired and envied by the Dean who found much difficulty in standing on his two feet. The reference to the Arts Building brought prolonged

cheers from the audience as Dean Laing said "when I visited the Arts Building I realized what architects could do when they concentrate." Some suggestions which may in the future become realities were then put forth; viz., a four year course for Commerce, two years of which is to be Arts, a course for teachers, more work along secretarial lines, and the introduction of cultural elements such as Greek and Latin.

M. E. Tremaine moved a vote of thanks to Dean Laing, Professor Sandwell, and Mr. P. B. Wilson. He also mentioned the loss to the school of Commerce, of Mr. Dale Harris, who has recently been called away by death. Winslow seconded the vote of thanks and the meeting broke up with Hail Alma Mater and the McGill Yell.

CORRESPONDENCE

To the Editor,
 McGill Daily.

Dear Sir:-

At last serious minded students are breaking into the correspondence column breaking into the correspondence column mega is the King of them all. I read his letter very carefully and at the end drew my conclusion. It may be summed up in a very few words and is as follows: Therefore, Napoleon wore socks.

This discussion, re the overshoe peril, reminds me of a story told about Sir William Laurier. One of the members of the opposition asked him why he wore red suspenders and the great leader replied: "To keep my trousers up." It seems that this answer may be applied to solve the present international problem.

Why do girls wear overshoes with the buckles undone? To keep their feet from getting too warm. Surely I with his "ghostly experience," or Alphaomega, with his poetic soul, would not have mere mortals impair their health—even if it does offend his highly developed sense of propriety?

Why should those who wear overshoes be subject to such comment and ridicule? Suppose they do follow that ever changing thing called fashion, and thereby have occasion to walk across the campus with overshoe-tops flapping to the wind; is not the discomfort theirs?

I would not presume to give advice to a fellow student—but just by way of suggestion, Alphaomega, make a study of faces.—Then your mind will be taken off the "over-shoesian controversy." There is a great field for the abovementioned study even on our own campus, and I don't say that your joy will not again be "mingled with sorrow." But even if the "red and white" is a bit overdone at times, one must take into account the present cold spell.

Thanking you, Mr. Editor, for your valuable space, I beg to remain,
 THE WOW BIRD.

To the Editor,
 McGill Daily.

Dear Sir:-

May I beg leave to reply to a rather unusual and seemingly futile letter which appeared in Wednesday's Daily with regard to the overshoe question. The authoress has chosen for herself a "nom de plume" which in my opinion is most inapplicable. Is it possible that one who boasts of a dainty step—as her signature implies—can reasonably defend the cause of those females who seek to draw attention by rendering every step they take a painful ordeal both to themselves and their audience?

Furthermore, the writer has failed miserably in the defence of her sex by seeking to justify this peculiarity by the fact that a very few men (for the most part of uncertain extraction) display similarly foolish tastes and lack of apparent sanity.

With regard to the men wearing their overshoes unbuckled it seems that the writer has slightly exaggerated the number. Twelve men out of eighteen with their overshoes unbuckled. Such a statement appears ridiculous.

On the whole the letter to which I refer displays a remarkable inconsistency: since the writer fails entirely to justify this most obnoxious taste in foot wear.

I remain yours faithfully,
 "Spats."

The original manuscripts of the Constitution of the United States and the Declaration of Independence have been removed from the State Department and have been placed in the Library of Congress, that building being of modern fireproof construction with appropriate exhibition halls.

PEPYS AT MCGILL

Thursday, Jan. 26th.—A very great ache in the head and mightily sick; as sick as 2 dogges.

CONTINGENT ORDERS

By
LIEUT.-COL. R. R. THOMPSON, M.C.,
 Officer Commanding.

MUSKETRY.—Musketty classification for men of A and B companies will be fired on Saturday afternoon, January 28th, at Craig Street Armoury under Lt. Lawrence, Classification Officer. Parade at the Quartermaster's Stores at 2.15 p.m.

The following officers and men who are shooting in the Inter-Collegiate Rifle Competition will parade on Saturday January 28th, for rifle practice and classification under Lt. Q.M. Bagg at the R. Victoria Rifles Armoury:—

Captain B. C. Leech.
 Lieut. S. W. Williams.
 C. Q. M. S. Downs
 C. Q. M. S. Delcellier
 Corp'l Horwood.
 L-Cpl. Bickford.
 Corp'l Boyd.
 L-Cpl. Fairbairn.
 Pte. Draper.
 Pte. Godet.
 Pte. Johnston E. B.
 Pte. Stewart H. M.
 Pte. Boyd.
 Pte. Watt L. A.
 Pte. Willoughby G. W.

Scores at classification firing will count in the competition arranged for prizes, details of which will be announced later.

PARADE.—The contingent will parade at the High School Drill Hall from 7.30 to 9.30 p.m. for drill and musketty instruction on Tuesday, 31st January. Dress: Drill order with rifles and bayonets. Winter Head-Gear will be worn.

LECTURES.—There will be a lecture to "A" and "B" candidates on Tuesday 31st January in the Engineering Building from 8.30 p.m. to 9.30 p.m. on "The Battle," "The Attack," by Lt. Col. R. O. Alexander, D.S.O.

APPOINTMENT.—Lieut. T. H. Winslow is appointed Assistant Adjutant. A. L. Patterson.
 Lieut. & Adjutant.

MCGILL STUDENTS
 All well dressed students go to Goodman's to hire their dress suit or tuxedo.

PARLIAMENT TO MEET NEXT FRIDAY

(Continued from Page 1.)

both sides of this question, and a very interesting debate is sure to result. When one comes to the matter of overshoes one is up against a momentous issue. When one reads such letters as those of Jumping Juniors and Agag it is easy to see that there is much to be said on both sides, and conversation about the campus often turns to this question. Without casting any reflections on any of the other writers, it must be said that Agag's letter was a most excellent production, and it is hoped that when she rises to enlarge on her views next Friday that the crowd will not overwhelm her and cramp her style.

The matter of the railway to Hudson's Bay cannot be allowed to lie on the table any longer. The Opposition are pressing for an early settlement of this matter, and the Government can no longer hold up the parade. As the question of immigration was settled at the last session, it is expected that some desirable settlers will be coming to take up the land in the Canadian West, and the completion of the line to Hudson's Bay is an immediate necessity.

These three questions will doubtless be the main issues to be debated. As usual before the opening of Parliament, many rumors are circulating on all conceivable topics. Probably the most talked of matter is the formation of a third party. It has been said in these columns that it

GLEE CLUB HOLDS CONCERT SUNDAY

The First Official Appearance of Year.

Sunday afternoon will witness the first official appearance of the Glee Club. At 4 o'clock they will give a concert in the Lounge Room of the Union, under the direction of Mr. Harold E. Key.

Mr. Key has worked hard to make this concert a success, and the response of the Glee Club members has been gratifying.

The programme will consist of both sacred and secular music, and will be very much enjoyed by all those attending. Ladies are especially invited.

The success of the Glee Club has been very marked this year, showing that a long-felt college need has at last been filled.

The next appearance of the Glee Club will take place some time in March when a concert will be given.

will be a Socialist party. This is possible, but not at all definite. Radicals and Labour people in college may enter into politics. If the plumbers, sundrymen, glass-blowers and other "trade unionists in Science" should amalgamate a strong Labour group could be formed. All these things are in the air, but as no one has any definite information, further talk is futile.

MEETING HELD BY ATHLETIC ASSOCIATION

Suspend Men Playing Without Medical Examination.
DELEGATES APPOINTED.
Students Are Warned to Adhere to Regulations.

A meeting of the Athletic Association was held yesterday in the Union. The minutes of the last meeting were read and the business of the day was discussed.

The "Daily" has four or five times printed articles stating that a McGill man is not allowed to partake in outside athletics without the permission of the Athletic Association. In spite of this fact, it was brought to the notice of the Association that Kent was breaking this rule. After due deliberation it was decided not to suspend him from the Athletic Association owing to special circumstances of the case. He was, however, severely censured and warned.

Gray, Mills, and Broderick were suspended from the Athletic Association for playing class hockey without a medical examination. McDougall of Arts '22 was also suspended for the same reason, thus disqualifying Arts '22 from the Inter-Class Hockey Series.

Dr. Lamb, Prof. Brown, and R. L. Hamilton were appointed as McGill delegates, and will leave for Toronto to attend the meeting of the Board of Governors Intercollegiate Union.

The various club managers were requested to try to use a more economical system of allotting equipment. The total amount of equipment is tremendous and requires a very economical system of distribution. The managers were also asked to pay closer attention to getting the eligibility forms in on time, and to keep a closer watch for men playing without a medical examination.

ARTS SENIORS WIN FROM SCIENCE '25

Freshmen Defeated by 5-2 Score.

Nothing daunted by their defeat of Wednesday night the old Arts Seniors came back with a vengeance last night to beat the Science freshmen by 5-2. The game started out at a fast clip and before long D. Moore put one in the corner of the net for Arts '22.

This was closely followed by a goal off Harris' stick. At this stage the Science men staged a rally and scored two goals in quick succession. Crepeau getting one and Burland the other. Science played very good combination throughout and time and again it was only McDougall's wonderful goal keeping that saved the situation.

In the second period there was no score for some time. Eventually however Dick Harris scored another and from this time on nothing the Science men did could cramp the style of the shift forward. Before the end of the period Harris scored twice, the first on a pass and the second in a scrimmage. For Science there was no individual star, the whole team playing with together. Gilmour in goal played a steady game. For Arts, McDougall was as usual the star, while Harris was very effective on the forward line.

The team were as follows:

Arts '22	Sci. '25.
Goal.	
McDougall	Gilmour
Defence	
Hall	Moore
D. Moore	Mace
Centre	
Copeland	Crepeau
Wings	
Harris	Kyle
Avison	Buckland
Subs.	
Matthewson	Nutting
Leslie	Bourne
	Pinkney

Goals scored:—
First Half
1—Arts—Moore.
2—Arts—Harris.
3—Science—Crepeau.
4—Science—Burland.
Second Half
5—Arts—Harris.
6—Arts—Harris.
7—Arts—Harris.

SWIMMING WITH MCGILL MERMEN

McGill Will Meet Toronto at Early Date.

The Swimming Club held its weekly practice in the Y. M. tank yesterday afternoon. Coach Vernot put the men through a stiff practice in preparation for the coming meet with Toronto which is expected to take place on the eighteenth and twentieth of next month. This year Toronto will come down to Montreal and will clash with McGill in the Y. M. tank on Drummond St. With the splendid showing made by the McGill men in the States it is expected that the Toronto boys will be given a good run for their money.

THE SENIOR TEAM IS OFF TO TORONTO

Will Give 'Varsity a Very Stiff Argument.
FLANAGAN GOING.
Will Play Part of the Game at Least.

The hockey team will leave this evening for Toronto to play there with the University of Toronto team tomorrow afternoon. Whereas they have an exceedingly hard game ahead of them in view of the fact that they are meeting the team that holds the world's amateur championship at the present time, they have not given up hope of winning.

The news that Flanagan would be able to go on the ice for the game cheered the team up considerably. Last night he turned out at practice and, although he did little in the way of hockey, he skated around in order to keep from getting out of condition. It is likely that he will not be used throughout the whole game but will be used at times during the contest.

There has been some question of the Toronto team being slightly stale as a result of their heavy schedule early in the season. They lost three games in succession a few weeks ago, and that is too much. It is doubtful if there are three amateur teams playing hockey which could defeat Toronto three times in succession. However, McGill is out to show that it is possible to turn the trick and the contest is bound to be a lively one.

The line-up for the game has not been announced definitely but Coach Shaughnessy will probably make some shift in the positions of the players. If Flanagan is able to start at right wing it is likely that Dineen will be played at left wing where his extraordinary ability at backchecking can be used to advantage. This would leave 'Boo' Anderson at the centre position, with Dempsey, and McGerrigle on the defence, and Stenson in goal. Lynch will be one of the substitutes to be used while the other is doubtful at the present time.

BOXERS PREPARING FOR CHAMPIONSHIPS

Entry Forms Must Be In Monday Night.

The boxers held a snappy practice in the Molson Hall gym yesterday afternoon. There was a very satisfactory turnout but a few men have not been out since Christmas, and are especially asked to be out at the next practice. Among these men are Fullerton and Sullivan. Coach Ernie Robinson is putting the finishing touches on the men in the preparation for the college championships. There are to be held on the 1st and 2nd of next month so it is easily seen that no time is to be wasted in getting out. All those who have been practising regularly with the class are expected to enter in the coming events. Entry forms are at the porters desk in the Union, both for the boxers and the wrestlers, and fencers. These lists will close on Monday and every man should see that his name is down on them. A large number of entries will ensure the tournament being a success, and everyone desires that.

All contestants will be weighed in four before the bouts commence, that is four o'clock in the afternoon. The afternoon. The weighing in will take place in the locker room in Molson Hall.

This year there has been a multitude of fights to be held before Wednesday and Thursday nights. It is probable that the eliminations will have to be held before Wednesday. If this is the case these bouts will take place in Molson Hall.

Owing to a change in the weights of the classes for the Ottawa trip, the team has not definitely been decided. Those who have not been notified will be informed by phone as to the train they are to take. The team will leave some time Saturday morning.

As an additional enticement to make the men turn out, a trip to the States will be taken, when the boxers mix it up with United States future midshipmen.

The men showed fine form, and are capable of making 'Varsity go the limit. There is a lot of new material among the swimmers who show every chance of doing some great things in the watery way of Intercollegiate Meets. Vicker-son is one of these men who deserve watching.

The relay team swam a couple of lengths and did the distance in record time, showing great speed and endurance. There is every chance of the team lowering its time in the coming battle.

The water polo team will be about the same as that which played the Americans. McGill has one of the best polo teams in Canada and will set a very fast clip for the Varsity mermen.

Vernot will be missed in this meet as he will be unable to compete, but it is hoped that McGill can do the tough just the same.

MCGILL FIVE READY FOR BIG MATCH

Meet Varsity Team in Toronto Tomorrow.
LEAVE TO-NIGHT.
Both Teams Strong and Very Evenly Matched.

The Senior basketball squad leaves tonight for Toronto where they will encounter the fast Blue and White quintette in their first intercollegiate feature of the season, tomorrow evening. The Varsity dribblers boast this season of the best allround five in a good many years but the McGill team has been materially strengthened by the addition of one of one or two stellar performers and with faithful training has developed into a well balanced machine.

The forwards, Manson, "Bones" Little, and Laishley should be able to hold their own with any combination in college circles. Manson, a newcomer to the squad has because of his continual brilliant performances been stamped one of the fastest cage-men in amateur ranks. He has an eagle eye for the basket and has been the most consistent scorer on the squad. "Bones" Little of football fame, and Laishley are both veterans and possess all the qualification of first rate forwards. Cecil Hay, is at his usual centre position and is playing in the best form of his career. It will be a merry tussle between him and Bill, the pivot man on the Toronto team.

The guards, who will get into action are "Eddie" Grain of last year's squad. Mendelsohn and Livshin, the husky centre of the football team. The latter two are newcomers but have shown great promise. Livshin, possesses unusual speed for a man of his weight and his checking is very effective.

The Varsity team which overwhelmed Queens by the score of 46-17 is composed of veterans of last year's championship five. Bell, the lanky centre is back again and is the most valuable man on the Toronto outfit, he rarely fails to get the jump on his opponents and last year was the heaviest scorer on his team. In the contest with Queens last Saturday Bell succeeded in compiling a total of 16 points, one less than the number tallied by the entire tri-color team. Stewart their star forward, also accounted for 16 points in this game and was one of the hardest men to hold on to. Gill occupies the other forward position. Their defence is a very small balanced. Graham is a very hard man to beat while Smith and Logan are guards of no mean ability. Smith seems to possess an uncanny shooting ability: playing in only one half the game with Queens he managed to add ten points to his teams total. The defence seemed impregnable last Saturday, when their rivals succeeded in caging only three goals from the floor.

The teams appear to be evenly matched and an interesting contest should be witnessed when the ancient rivals clash at Hart House tomorrow night.

A COLLEGE MAN'S NEWSPAPER

The college man today needs a regular reliable and brief medium whereby he can get the news every day in the shortest possible time and with the least tax on his energy. Most of all he needs a dependable digest of the paramount events in the national and international spheres.

Unfortunately today the college man is noted for his deplorable ignorance of current events. That ignorance is partly due to the inadequacies of the newspapers at his disposal, partly to his own lack of time to delve into an entire newspaper and read when his whole day is occupied with reading.

Students coming from all over the country and some from all over the world are little expected to follow with any accuracy the fragmentary world news and tremendous local

IN MEMORIAM

M. D. Kennedy.

It is pleasant when a day's work is done to look back with the thought that it has been a good day. We are glad when we can call it good, because we know that it will not come our way again. What remains is not a detailed remembrance of things done, but rather an impression of something in its wholeness, a memory that we may cherish without a disturbing wish that it had been otherwise.

A life touches us in just that way. It swings into our consciousness, stirs us to action and reaction, lays its own peculiar stamp upon the record of our minds and passes; leaving a memory not so much of casual contacts and fragmentary conversations, but of a personality that through these has been but partially and imperfectly expressed. But when the life itself is gone, how much it matters if the memory that lives is the record of something essentially good!

A friend and college mate has been lost to McGill men. He was not widely known perhaps — for a quiet man may easily escape the popular attention. But those who were near enough discovered his true worth, and appreciated the qualities that made him a good companion, a genuine friend, and now leaves a memory that is in itself a great possession.

Liggett's All-Cream Ice-Cream

Ice Cream, when properly made is one of our most nourishing and wholesome foods. Liggett's Ice Cream is all of that and is made under the strictest sanitary precautions from pure cream, best granulated sugar and pure fruits, in our modern day-light Factory. Liggett's Ice Cream is obtainable at our Soda Fountains and Tea Rooms, also in pint bricks for a treat.

to take home and give the fam-

MEDICINE '22 DEFEAT COMM. FRESHMEN, 3-2

Behan Scored 3 Goals for Meds.
VERY FAST GAM.
Good Combination Made It Best Interclass Game Yet.

In a hard and fast hockey game on the campus rink last night, Med. '22 nosed out Com. '24 by a margin of two goals, the final score being 3-1 in favour of Medicine. The game was one of the best seen this season in Interfaculty playing. The sheet of ice was excellent, and the players, taking advantage of this, furnished the spectators with a brand of hockey such as is seldom seen on the college rink.

Behan was a whole team constellation in himself, it being he who scored the three goals for Medicine.

Naud, McCormick, Imbleau and their team mates assisted each other and played combination which would have been invulnerable to any team but Com. '24. The score, very probably would have been different had it not been for O'Shaughnessy, the Med. goalkeeper. Falls, the Commercial puck stopper, also acquitted himself creditably.

For the losers, Stearns and J. McCormick snared honours, Stearns being responsible for Commerce's only goal. However, the other players were always close on the heels of these two. Robertson and Goldie played an excellent defence game.

The first period ended with the score of 1-1. Stearns and Behan being the lucky ones. In the second period, Behan scored two more, and so the game ended.

Throughout the match there were no penalties administered by referee Elderkin.

The line-up was as follows:—

Med. '22.	Goal.	Com. '24.
O'Shaughnessy Falls	Defence.
McCormick Robertson	
Behan Goldie	Forwards.
Imbleau J. McCormick	
McIntosh R. McCormick	Stearns

material that forms a large portion of the small town paper. When we consider that there are many students all over the land who are in a similar situation, something ought to be done to bring the broad news to them—the news in which they are particularly interested.

Again a college man's newspaper should be brief and devoted to nothing but vital domestic or world affairs. The newspaper should be a sort of daily leaflet sent to all the students of the country and thereby act as an influential educator of American students in current events. A great defect of American education would thereby be mitigated.

BASEBALL PRACTICE AT HIGH SCHOOL GYM.

Some fifteen or twenty men were out for indoor baseball practice last night in the High School gymnasium in preparation for the start of the Montreal City and District League next month. McGill will have two teams in the league, and although no line-up can be given out as yet, the batteries will probably be chosen from the following: Henry, Gabor, Phillpott, and McCullough, pitchers; and Moran, Bronson, and Peacock, catchers. More of last year's players are expected at practices and the Reds and Whites should have a team strong enough to carry off the league championship. On February 2nd, the Reds play R. C. R. and Whites meet MacDonald Students, while the MacDonald Staff, the other team in the league, have no game on their date. The games will be played in the Craig Street Armoury.

SATISFACTION.
I'm glad I'm not a centipede—a dromedary or a fly—
A doughnut or a gardenweed—
I'm satisfied I'm I—

A recent society paper noted thus: "Among those present were Mrs. W. E. Brown in blue satin with silver face overdress and carrying pink roses and Dr. R. A. Franklin.

Unitarian Church of the Messiah

Sherbrooke West and Simpson Streets
REV. SYDNEY B. SNOW, B.A., S.T.B. Minister.
Morning Service at 11 a.m. Mr. Snow will preach.
4.30 P.M.—Organ Recital by George M. Brewer, F.A.G.O.
8.15 P.M.—Public Meeting, when PROF. ROGER B. MERIMAN, M.A., Ph.D., of HARVARD UNIVERSITY will give the address, "SCIENTIFIC PROGRESS AND RELIGIOUS BELIEF."
Organ Prelude at 8 o'clock.
Students and all members of the University are invited to these services.

Final Sweep Sale of Semi-ready Suits and Overcoats

at the

Tooke St. James Street Shop Only

We have drained the Semi-ready Tailor Shops of the last garment they are prepared to sacrifice at below the cost of production. And we are going to pass these garments on to the buying public on a no-profit basis. Not a suit or overcoat must remain unsold. You will be more interested in the prices than in our reason for such drastic price slashing. Read them:—

Semi-ready Suits

\$15.00

Finely tailored, good tweed Suits.
Regular at \$25.00

Semi-ready Overcoats

\$8.75

Good Winter Overcoats, mostly small sizes.
Regular at \$20.00 to \$30.00

\$17.25

Good Semi-ready Business Suits.
Regular at \$35.00

\$12.75

Winter Overcoats and Ulsterettes.
Regular at \$25.00 to \$35.00

\$18.75

A bit better in quality of cloth and trimmings.
Regular at \$40.00

\$17.75

The standard of Semi-ready excellence.
Regular at \$30.00 and \$35.00

\$19.75

Of finer texture and finish.
Regular at \$45.00

\$21.50

Storm Coats of all-wool fabric.
Regular at \$35.00

\$22.50

Splendid assortment of patterns.
Regular at \$50.00

\$26.50

Heavier weights and finer cloths.
Regular at \$40.00

Remember this Sale will be conducted only at the

R. J. Tooke Shop
245 St. James, near McGill

NOTICES

BREWERY TRIP.

The Electrical and the Mechanical Club have arranged to visit the Frontenac Breweries together, on Saturday, Jan. 28. Meet at the Union at 2 p.m. sharp. Anyone wishing to join either of the clubs may do so on the trip.

INTERMEDIATE WATER POLO TEAM PHOTOGRAPH.

The following men are requested to be on hand at Notman's, to-day, at 1 o'clock. Members of the team are requested to bring bathing suits.

Dr. Sullivan—Hon. Pres.
Mr. E. Vernet—Hon. Coach.
R. H. Foss—Pres. S. C.
M. A. Gaboury—Manager S. C.
Graham Browne, G. MacKindsey,
C. Anson, J. Forsyth, G. Vickerson,
J. Ross, W. D. Munro and A. L. Gravel.

NOTICE.

All Juniors are requested to have their pictures taken by Saturday at the latest. The Photocraft Studio, corner St. Catherine and St. Matthew, are taking these pictures.

PHYSICAL SOCIETY.

The next meeting of the Society will be held in the MacDonald Physics Building to-day, at 5 o'clock. Subject: Some recent improvements in medical X-ray technique, and some medical X-ray problems still unsolved. You are cordially invited to attend.

NOTICE.

Mr. Taylor Statten, well known throughout Canada as an expert in Boys' work, now Secretary of the National Boys' Work Board, is to speak to a college audience at Strathcona Hall to-day, at 4.30 p.m. The meeting is open to all members of the University.

NOTICE.

A University Church Service will be held in the Union on Sunday at 11 a.m. The speaker is Canon Shatford. Prof. W. C. Graham will be in charge of the service, with Sir Arthur Currie assisting. The choir and orchestra will be provided from the student body. All members of the University are invited to attend this service.

NOTICE.

The S. C. A. Board picture date has been changed from Saturday, Jan. 29th, to Tuesday, Jan. 31st, at 1.30 p.m.

E. T. CLUB.

A skating party will be held on Thursday, Feb. 2, at 8 p.m. Refreshments will be served at the Yellow Tea Pot Inn at 10 and dancing will follow. Tickets 50 cents a couple. For further information watch the columns of the Daily next week.

BASKETBALL.

"C" team will play W.A.A. on Saturday, Jan. 28, at Molson Hall, at 5 p.m., instead of at 7.45 p.m.

GLEE CLUB.

Members watch Saturday's Daily for time for photo to be taken at Notman's. As it will be at noon, come prepared. Full dress or tux, or in lack of both, dark suit, black tie and wing collar.

JUNIOR HOCKEY.

There will be a practice for the Junior hockey squad on the Campus Rink at 5 o'clock this afternoon. All Juniors are requested to turn out.

NOTICE.

Regular Gymnasium Classes will begin again in Molson Hall on Friday, Jan. 27, 1922, as per published time table.

NOTICE.

There will be a class photo taken of Arts '22 on the steps of the Arts Building at 1 o'clock to-day. All up.

PHILOSOPHICAL SOCIETY.

There will be an open meeting of the Philosophical Society in the Union on February 6th, at 8.15. Dean Laing will address the meeting, and will be introduced by Sir Arthur Currie. This meeting will be a splendid opportunity for Arts men to hear Dean Laing.

PHILOSOPHICAL SOCIETY.

The photo of the Philosophical Executive will be taken at Notman's on Thursday, Feb. 2, at 1 p.m. Following will please be present: Dr. Hickson, Dr. Caldwell, Dr. Tait, E. B. Copland, L. A. Sperber, R. Lemessurier and S. Clark.

The following are requested to attend a committee meeting in the Union to-day at one o'clock:—

R. Hall,
T. J. Toole,
E. Crawford,
E. A. Sherrard,
Le Baron,
C. H. Fraser,
Moore,
A. R. Winn,
Farrell,
L. K. Anderson,
R. S. Logan.

LECTURE BY DEAN LAING NEXT WEEK

To Address Philosophical Society in Union.

OPEN DISCUSSION.

Opportunity to Hear New Arts Dean.

One of the most interesting events that is scheduled for the near future is the open meeting of the Philosophical Society which will be held in the Union on Monday February 6. A speaker of unusual eminence has been secured for the occasion in the person of Dean Laing, lately appointed to lead the Arts faculty. The main reason why the executive have secured the Union and have proclaimed an open meeting is because it feels that the Philosophical Society is affording the Dean his first opportunity of addressing the students of the Arts faculty. It is for this reason mainly that Sir Arthur Currie has consented to be present and to introduce the speaker.

It is very important that a large crowd should turn out on this occasion to hear the Dean as he comes to McGill with a great fund of experience, gained in his successful career as a professor of classics. He has chosen as the title of his address, "Philosophy and the Arts Course." He has assured the executive that his address will deal with general topics to a large extent and for this reason his remarks will be of interest to all who may not be specially interested in Philosophy. However it may be said that all who do not think that they are interested in philosophy should come to hear the views of a broad-minded scholar on the subject. Philosophy includes all psychology, probably one of the most fascinating subjects a person could wish to study.

Perhaps a few words about the history and functions of the Philosophical Society would not be amiss. It is one of the oldest societies in the Arts Faculty and although its active membership has never been very large, those who have belonged have been enthusiastic. Many very excellent papers have been presented by various members in past years and some of these have been published in pamphlet form or as magazine articles.

The main purpose of the society is to stimulate interest in philosophical and psychological questions among students of philosophy and any others who care to attend the meetings. The procedure followed as a rule in the meetings is to have a paper read and this is followed by a discussion. This same system will be used at the open meeting, when Dean Laing's address will be followed by an open discussion.

People in glass houses shouldn't throw dice.

ADHESIVE ENGINEERING.

A foreman rushed up to his boss one day in excitement exclaiming: "Boss, one of your buildings has just fallen down."

"What," answered that individual in an insulted voice, "one of my beautiful villas has blown down."

"Yes, Sir," answered the foreman, "it is my fault, I took down the scaffolding before I put up the wall paper."

UNCERTAIN.

Anxious Old Lady—"I say, my good man, is this boat going up or down?"

Deckhand—"Well, she's a leaky old tub, so I shouldn't wonder if she was going down. But then, again, her 'bilers ain't none too good, so she might go up."

EXECUTIVE LAW UNDERGRAD.

The executive of the Law Undergrad. Society will meet in the Law Building this morning at 9.30.

STRATHCONA TRUST COURSE.

There will be no lecture to-day at 3 o'clock, but will the 4th year students taking this course be ready for a practical class in the gymnasium at that hour.

The last lecture will be on Friday, February 3rd, at the usual hour.

REMOVED.

If any person knows anything about the disappearance or present whereabouts of a brand new hockey stick plainly marked with my name, will she please communicate with me at once, as I need it for practice this afternoon.

EVELYN SNYDER,
R. V. C. '22.

R. V. C. HOCKEY.

Team practice to-day, Friday, at 5 o'clock sharp. Shag will be out, and the following girls are requested to be present. Last practice before the class matches, so all out!

Foley,
Rough,
Snyder,
Kerr,
Elliot,
Robertson,

LAURENTIAN EXPEDITION FOR SKIERS

Start Saturday Morning for St. Sauveur.

LOTS OF HILLS.

Some 35 Members of Ski Club Will Take Trip.

Fine cold weather seems assured for the Ski Club's trip to the Laurentians this year. There is a lot of snow in the mountains, and that is all that is necessary along with the fine weather to make the skiing a success, for the hills do the rest. For those who have never seen the Laurentians in the winter, this is a fine opportunity to acquaint themselves with the wonders of the hills in their snow covering.

The expedition, as stated before in the Daily, is scheduled to take place this week-end at St. Sauveur, the ideal place for ski-ing. St. Sauveur is situated a short way from Montreal, requiring a journey of less than two hours train travel to reach. The usual method of getting there is to take the C. P. R. to Piedmont, and ski the two miles along the road to St. Sauveur. The train leaves Place Viger Station at 4.10 in the afternoon, at 8.45 in the morning and also at 1.15 P.M., on Saturdays.

The majority of the trippers are leaving on the morning train on Saturday, giving them two full days ski-ing in the mountains. The main idea is to travel light. Nobody going up the mountains for ski-ing thinks of wearing their ordinary clothes, and changing at their destination to ski-ing togs, but all wear their ski-ing outfit on the way up, carrying as small an amount of baggage as is humanly possible. A pair or two of extra socks is about the total of necessities. Skis are checked at the station for the sum of twenty-five cents per bundle, and the thrifty ones will do well to club together and tie a few pairs of skis up to make "one bundle," thus saving the odd quarter.

Arrangements have been made for thirty five to go up, and all who have signed up are keen to test out the hills. It is really many times better ski-ing than is obtained on Mount Royal. The hills are so numerous that no monotony need be experienced by having to use the same one too frequently. Another advantage is that the slopes are of all degrees of steepness. Not even those who have donned skis for the first time this month would have any difficulty in finding a slope moderate enough to practice on. But then, for the man who was born on skis, there are hills made to order for him, to do all manner of turns, or to build for himself thereon a jump of alarming magnitude.

As stated, arrangements for thirty-five have been made, but the number of men signifying their intention of going has not quite reached that number, and some ten more can be taken. Those who have not given in their names, will please see one of the men named below and let them know, as it is desirable that an idea of the exact number going be obtained. This is an opportunity once only, this season. The cost of this trip will be light, as the R. R. fare amounts to the sum of \$3.10 return, and the room and board is but \$2.50 per diem, and each and every day, three square meals will disappear for every one there. The return is to be made Sunday night, so no early rising. Monday morning will mar the delight of the band of skiers.

If you are going, then, and have not signed up, do so at once with one of the following:

Arts:—H. E. Elliot.
Medicine:—C. Ramsay.
Science:—A. O. Leslie.
Law:—D. Anderson.

If for some reason you cannot see any of these men, be early at the train and we will all go up and get accommodation some way, as there is another hotel at St. Sauveur.

INTER-FRATERNITY HOCKEY FIXTURE

Nu Sigma Nu's Tied D.K.E.'s

The hockey game in the Interfraternity League between the Nu Sigma Nus' and the D. K. E.'s resulted in a tie what proved to be a very exciting game. Both teams suffered from lack of condition so the line-ups were continuously changing. However, the pace was very fast from the first, so fast in fact that several players had to be helped off the ice in the second half.

The Nu Sigma Nus' drew first blood when Wells sent a long shot past Parker. It wasn't long before the D. K. E.'s evened up and were having the better of the play. They lacked in scoring ability, although Cook was bombarded continuously. Before the period was over, the Nu Sigma Nus' managed to slip in two more goals making the score 3-1 in their favour.

The D. K. E.'s forced the play in the second half and Dionne scored on a nice play. The D. K. E.'s scored one more in the last few minutes and only missed a second by a hand's breadth.

For the Nu Sigma Nus' Wells and Caldwell were the pick. Cook in Goal also put up a good game. Dionne for the D. K. E.'s was the best man on the ice. Wilson and Gordon both play a good game.

MR. STATTEN TO ADDRESS MCGILL MEN

Meeting at Strathcona Hall To-day.

BOYS' COUNCIL.

Working to Provide More Adequate Training in Citizenship.

Taylor Statten, Executive Secretary of the National Boys' Work Board will address a meeting of students in Strathcona Hall this afternoon (Friday) at 4.30 p.m.

Mr. Statten has had a remarkable career in his chosen field, and is well known to many men in all faculties who have heard him speak at older boys' conferences in different parts of the country during their High School days. Beginning as a worker with boys in one of the Y. M. C. A.'s in Toronto he rose quickly through his eager interest in the cause of teen-age boys to the leadership of a national movement for the conservation of boy life.

The Boys' Work Board of which he is Secretary is a National Merger of all Protestant organizations in Canada and at the present time is carrying out through the Churches Y. M. C. A.'s, Rotary Clubs etc., of the country an extensive programme of Boys' Work along what is known as "the fourfold development plan."

One of the problems in which Mr. Statten is particularly interested is that of providing a more adequate training for boys in the principles of democratic citizenship. He has recently completed in Toronto the organization of a Boy's Municipal Council the election for which stirred up the boyhood of that City as nothing harring an occasional Circus had ever done in the past.

In this election over ten thousand boys voted and the campaigns of the various candidates showed the possibilities of developing boys into citizens who will be trained to talk clearly and concisely in public and to deal intelligently with public questions.

Mr. Statten is now starting on a three months coast to coast trip in which among other things he expects to form similar City Councils in every large City and to lay plans for the election of Boys' Legislatures in every province. He states that within two years he hopes to have a National Boys' Parliament Meeting in Ottawa.

The line-up was as follows:

D. K. E.'s	Nu Sigma Nu's
Goal	
Parker	Cook
Defences	
Reid	Trites
S. Wilson	McLaughlin
Centre	
J. Gordon	Wells
Wings	
B. Gordon	Caldwell
Dionne	Adams
Subs	
Packham	Mathews
Gow	Dawson
McKenzie	Madar
F. Wilson	Brown
